SUMMARY

Experienced Full Stack Developer with 3 years of experience, specializing in building scalable, responsive web applications using React.js. Seeking opportunities to leverage my skills in a dynamic organization and utilize my technical expertise and development skills.

WORK EXPERIENCE

Capgemini

Software Engineer

Nov 2022 - Present

Project: Adapt

- Roles and Responsibilities: Full Stack Developer
- Environment: React.js, Java Spring Boot
- Designed and developed dynamic UI components in React.js and implemented backend services using Spring Boot for the client NSE (National Stock Exchange).
- Enhanced system reliability and performance through code optimization and integration practices.
- Collaborated with other developers to integrate systems through APIs, ensuring seamless data flow and functionality.

Project: Data Reconciliation Platform

- Roles and Responsibilities: UI Developer
- Environment: React.js, Redux
- Developed responsive user-facing web application using React.js and Material-UI, enhancing user engagement and streamlining data comparison processes.
- Implemented robust data validation between Snowflake & Power BI datasets, identifying discrepancies and enabling quick, accurate data analysis.

Project: Insight Bot

- Roles and Responsibilities: UI Developer
- Environment: React.js, AWS
- Design and Developed a web application that processed uploaded files and returned summary insights using React.js and Material-UI.
- Built custom UI logic to handle file uploads, status handling, and result rendering.

SKILLS

- Languages & Frameworks : React.js, Redux, Spring Boot, Java, JavaScript
- Tools & Technologies: REST APIs, Git, GitHub, Material-UI, HTML, CSS, Visual Studio Code
- Cloud/Database/Tech-Stack: PostgreSQL, AWS

EDUCATION

Sir Visvesvaraya Institute of Technology Nashik

Bachelor of Engineering - Computer Engineering

2018 - 2022

Arts, Commerce & Science Junior College Nashik.

HSC

2016 - 2018

CERTIFICATIONS

AWS Certified Cloud Practitioner

Microsoft Certified: Azure Fundamentals [🔗](#)
